- As of January 2017, Illinois ranked third in the U.S. for ethanol production capacity.
- In 2016, ethanol production helped support 339,176 jobs and added \$42 billion dollars to the nation's Gross Domestic Product. This economic impact and job creation helped raise individual household incomes by \$23 billion dollars.
- In 2016, the use of ethanol in gasoline reduced CO₂-equivalent greenhouse gas emissions from the transportation sector by 43.5 million metric tons. That's the equivalent to removing 9.3 million cars from the road for an entire year.
- There are now 213 bio-refineries in 28 states with an annual production capacity of 15.9 billion gallons.
